74th Year No. 266

Boy, 10, Killed In Auto Smash

Joseph C. Morgan, 10, son of Mr. and Mrs. Samuel Morgan, Route 1, Williamsport, was killed Sunday on the Harrisburg-Darbyville Road about 20 miles northwest of Circleville.

The boy died at about 12:45 a. m. as he was helping pour gasoline into a stalled car. He was struck by an auto driven by Frank Creamer, 60, Route 1, Williamsport, sheriff's deputies reported.

The Morgan boy and his half-brother, Myron Seymour, 22, Orient, were both injured. Seymour was rushed to Berger Hospital where he was treated for lacerations and contusions of the head and back. Creamer was uninjured.

Creamer's car also struck an auto owned by Joseph M. Rowland, 34, Route 1, Orient, who had parked so that his headlights would allow Seymour and Morgan to see in pouring the gasoline. Rowland was not injured.

According to Deputy Sheriff Charles Felkey the youth's body was dragged underneath Creamer's car about 60 feet until the

5
DEAD

1957

returned with them and parked his auto so the lights would shine on the stalled car.

Creamer, traveling southeast, said that he did not see the car parked on his side of the road and that he was blinded by the lights of Rowland's car parked on the other side of the road. The sheriff's

Dayton Man Slays His 2 Sweethearts

Police Say Father Of 4 Feared Wife Would Find Out

DAYTON (AP)—Police said a 31-year-old man involved in a romantic quadrangle has admitted killing his two teen-age sweethearts because he was afraid his wife would find out about them.

The bodies of Miss Beverly Ann Eldred, 17, and Mrs. Deanna Jean Fouch, 16, both of Dayton, were found alongside a country road about five miles south of here Sunday. They had been shot.

Detective Lt. R. C. Beckett of the sheriff's office said Robert Crites, father of four, admitted in a signed statement that he killed both girls.

Crites was quoted as saying he didn't want the girls to do to others what they had done to him. He said he had spent much time and money on them.

Beckett said the statement also mentioned that Crites intended to take the girls' bodies to Colorado and, while there, kill his wife's sister because "she's just like the other two." But he abandoned that idea after the slaying.

BECKETT SAID Crites told of taking both girls for a drive in his car Sunday. He stopped on some pretext, got out, then fired six bullets through window one girl had opened, he related.

The girls' bodies fell out when Crites opened the door. He said he left them there and drove to his mother's home in suburban Kettering. From there he called Kettering authorities and gave up. Beckett said Crites told of first

13-Year-Old Bike Rider Hit By Auto

Two accidents during the weekend, one involving a 13-year-old bicyclist, were reported by the Pickaway County Sheriff's Department today.

Charles Wiggins, son of Mr. and Mrs. Carl Wiggins, Route 4, Circleville, suffered a fractured left arm and possible head and chest injuries when his bicycle was struck by a car on Route 56 about two miles southeast of Circleville yesterday at 9:30 a. m. He was treated at Berger Hospital.

The auto was operated by George R. Dingess, Route 4, Circleville, who was not injured in the crash. A passenger, Ruth Dingess, suffered shock.

Dingess, traveling west, told Deputy Sheriff Dwight Radcliff that he observed a bicyclist rider in front of him. Dingess said the rider pulled off the highway onto the berm, then suddenly darted diagonally across the highway in front of his car.

DINGESS said he veered his car to the left in an unsuccessful attempt to miss the bicycle. Deputy Radcliff said the bicycle was demolished and the car extensively damaged.

The other accident was Saturday at 9:15 a. m. on Route 188 about four miles east of Circleville. Victor P. Simiele, 17, Route 1, Carroll, suffered abrasions and contusions of the forehead.

Simiele, headed east, told Deputy Robert Hoover that his car went out of control on a curve and rolled over. The car was demolished, the deputy said.

Ike To Get Reports Today On His Health

Ingrid Bergman Mum On Ill-Fated Marriage

LONDON (AP)—Ingrid Bergman arrived in London Sunday night to work on a new film and refused to discuss her break with her husband, Roberto Rossellini.

Her eyes filling with tears at a question about her legal separation last week from the Italian director, the actress said:

"There has been too much reaction to our decision."

And Miss Bergman denied a Stockholm report that she plans to marry Lars Schmidt, a wealthy Swedish impresario.

Car Plunge Kills 7

LAFAYETTE, La. (AP)—A car crashed through a bridge railing and plunged into Bayou St. Claire near here Sunday, drowning seven persons.

MIDEAST GRIPPED WITH WARFARE FEARS

Red Report Says Russian Space Dog May Be Dead

By THE ASSOCIATED PRESS

Death reportedly has claimed the Russian dog Laika, first earth creature to penetrate outer space.

The report of Laika's death was published today by the Italian Communist newspaper L'Unità, quoting its Moscow correspondent. It said Laika was "put to sleep by a strong narcotic contained in the last bite of food to avoid its suffering prolonged agony."

The headline said "Laika is Dead," although the story did not use those words. It said, "Laika will never return to earth."

There was no direct word from Moscow on Laika's fate, but the Soviet news agency Tass said Sunday night that "the program of scientific research as planned through the second Sputnik has been fulfilled completely."

Later, Moscow radio reported that Sputnik II had completed its 11th circuit of the earth but made no mention of Laika.

Meanwhile, the problem of overtaking the Russians in the space satellite and missiles fields came in for wide-ranging discussion in the United States.

A staff report to the Senate Government Operations Committee recommended an overhaul of U. S. scientific programs. Among other things, the report called for creation of a department of science and technology headed by a new Cabinet officer.

The radio on Sputnik I has been dead for some time.

LAIKA HAD been locked in an airtight compartment inside the second satellite. The Russians said she was fed automatically. A Russian diplomat in Germany said last week an eight-day food supply had been aboard.

Some scientists have suggested the compartment containing Laika could be detached and parachuted back to earth. But the L'Unità report, apparently cleared by Soviet censors, indicated the Russians had no such plans.

In Cambridge, England, Dr. Alan Nunn May, who was convicted in 1945 of giving British atomic secrets to the Russians, said he was ready to volunteer to go aloft in a space satellite.

The army spokesman said "large-scale, night-long unusual and unprecedented military movements" of Turkish units took place, and as a result all necessary precautions were being taken by Syria.

This show of alarm about the northern frontier, where Syria and the Soviet Union have been charging Turkey with making provocative gestures, coincided with a huge demonstration here against King Hussein of Jordan.

ABOUT 10,000 demonstrators, mostly Palestinian Arab students, paraded in the streets shouting "down with King Hussein" and crying that he was seeking to negotiate with Israel at the expense of Palestinian Arab refugees.

Speeches in front of the government and parliament buildings also denounced Jordan Premier Samir Rifai as an "agent of the Americans and British."

Cairo newspapers boomed out new attacks against Hussein, charging he was making undercover deals with Israel and predicting the people would trample traitors and oppressors underfoot.

King Hussein struck back at the Egyptian propaganda attacks. He said Egyptian leaders had "sold themselves to communism and exploit Arab nationalism to divert Egyptian public opinion away from the deteriorating situation at home."

Half or more of Jordan's population is composed of Palestine Arabs, people easily stirred by any hint that their claim to their old homes in Israel might be sacrificed in a peace settlement.

The Egyptian and Syrian press intermittently since he ousted a pro-Egyptian and Leftist government in a major crisis last spring.

The papers renewed the campaign last week, printing various stories about alleged negotiations between Jordan and Israel, and darkly hinting Hussein would suffer the same fate as his grandfather—assassination.

PO RIVER BURSTS Dikes

ROVIGO, Italy (AP)—The rain-swollen Po, north Italy's mightiest river, burst its dikes today, flooding thousands of acres of farmland and driving hundreds from their homes.

385 Alps Climbers Die

ROME (AP)—Europe's rugged Alps, an eternal challenge to man's spirit of adventure, have dealt out death to 385 climbers this year, the most tragic mountaineering season ever recorded.

In London, Prof. A. C. Lovell,

a leading British astronomer, said it was "very, very odd" that the radio transmissions from Sputnik II ended so quickly. He said he can't believe "they sent this rocket up for getting information from it for only seven days."

Another British scientist said Sputnik II may be silent because its signaling apparatus might have been damaged.

"Instruments could have been damaged if the Russians tried to catapult the dog back to the earth," said John Shakeshaft, member of Astronomical Observatory staff at Cambridge.

Sputnik II was launched Nov. 3. The newspaper Evening Moscow said Sputnik I and its carrier rocket had finished more than 550 circuits since their launching Oct. 4.

In Houston, Tex., the nation's oldest living Civil War veteran made plans today to ride in a Veterans Day parade, but relatives said they were not sure he would be able to make it.

Col. Walter W. Williams, who will be 115 Thursday, expressed a desire to ride in an ambulance in the parade here.

Williams is one of two surviving Civil War veterans.

Mother, 2 Children, Freed From Siberian Labor Camp

CHICAGO (AP)—A reunited family today marked the end to 11 years of separation, 11 years spent by the American father in seeking to free his Lithuanian wife and two children from a Communist labor camp in Siberia.

Kennan is former U. S. ambassador to Moscow and one of the leading American authorities on Soviet affairs.

Columbusite To Head Nation's Young Dems

RENO, Nev. (AP)—The nation's Young Democrats ended their convention Sunday with the election of Nelson Lancione of Columbus, Ohio, as new president.

One of several resolutions adopted called for "vigorous enforcement" of laws governing civil rights, saying that racial discrimination is "a disgrace."

"Everything dimmed—I was in tears," he told newsmen.

"I am just beginning to come to. I am the happiest man in this whole, wide world. I do not have the words to express myself."

Monika, his 44-year-old wife, joined him. He asked an attorney from

New York, Marshall MacDuffie, to help.

MacDuffie, a former United Nations official, took the appeal personally to Soviet party Boss Nikita Khrushchev, but he met with little success.

Eventually MacDuffie asked Mrs. Franklin D. Roosevelt to intercede. She too spoke directly to Khrushchev.

This year the family was released. Gavicus, who operates a liquor store in suburban Oak Park said he financed most of the Siberia-to-Chicago trip himself.

The wife of the Lithuanian con-

tinued, Mrs. Petras Dauvardis, said this was the first time the Soviets have released anyone from Siberia to settle in the United States.

Boy, 10, Killed In Auto Smash

Joseph C. Morgan, 10, son of Mr. and Mrs. Samuel Morgan, Route 1, Williamsport, was killed Sunday on the Harrisburg-Darbyville Road about 20 miles northwest of Circleville.

The boy died at about 12:45 a. m. as he was helping pour gasoline into a stalled car. He was struck by an auto driven by Frank Creamer, 60, Route 1, Williamsport, sheriff's deputies reported.

The Morgan boy and his half-brother, Myron Seymour, 22, Orient, were both injured. Seymour was rushed to Berger Hospital where he was treated for lacerations and contusions of the head and back. Creamer was uninjured.

Creamer's car also struck an auto owned by Joseph M. Rowland, 34, Route 1, Orient, who had parked so that his headlights would allow Seymour and Morgan to see in pouring the gasoline. Rowland was not injured.

According to Deputy Sheriff Charles Felkey the youth's body was dragged underneath Creamer's car about 60 feet until the

auto crashed into Rowland's vehicle. The car had to be jacked up to get the body out the deputy said. Death was caused by head injuries.

ACCORDING TO Seymour he and the victim went to Rowland's house nearby to get gasoline after the car stalled. He said Rowland

survivors include a brother, Darrell, 7, Darbyville, and a half-brother, Myron Seymour, and his maternal grandmother, Mrs. Belle Smith, Darbyville.

Funeral services will be at 1:30 p. m. Tuesday in the Darbyville Methodist Church, with the Rev. Robert St. Clair officiating. Burial will be in Darbyville Cemetery. The Denfbaugh Funeral Home is in charge of arrangements.

Friends may call at the residence in Darbyville.

Sunday's death marks the fifth fatal accident on Pickaway County highways so far this year. Last year at this time 18 traffic deaths had been recorded here.

The fatal accidents this year include one in January, one in August, one in September and one in October. Last year five deaths were recorded in November.

returned with them and parked his auto so the lights would shine on the stalled car.

13-Year-Old Bike Rider Hit By Auto

Two accidents during the weekend, one involving a 13-year-old bicycle rider, were reported by the Pickaway County Sheriff's Department today.

Charles Wiggins, son of Mr. and Mrs. Carl Wiggins, Route 4, Circleville, suffered a fractured left arm and possible head and chest injuries when his bicycle was struck by a car on Route 56 about two miles southeast of Circleville yesterday at 9:30 a. m. He was treated at Berger Hospital.

The auto was operated by George R. Dingess, Route 4, Circleville, who was not injured in the crash. A passenger, Ruth Dingess, suffered shock.

Dingess, traveling west, told Deputy Sheriff Dwight Radcliff that he observed a bicyclist ride in front of him. Dingess said the rider pulled off the highway onto the berm, then suddenly darted diagonally across the highway in front of his car.

DINGESS said he veered his car to the left in an unsuccessful attempt to miss the bicycle. Deputy Radcliff said the bicycle was demolished and the car extensively damaged.

The other accident was Saturday at 9:15 a. m. on Route 188 about four miles east of Circleville. Victor P. Simiele, 17, Route 1, Carroll, suffered abrasions and contusions of the forehead.

Simiele, headed east, told Deputy Robert Hoover that his car went out of control on a curve and rolled over. The car was demolished, he related.

IKE TO GET Reports Today

On His Health

WASHINGTON (AP)—President Eisenhower gets a doctors' report today on the state of his health a year after election to a second term.

The President, who has called it a year of constant dealing with crises, entered Walter Reed Army Hospital Sunday for his first head-to-toe physical examination in more than 12 months.

The White House called the examination routine, an annual precaution. Eisenhower arranged to check out his third-floor hospital suite before nightfall. The substance of the report he receives from his physicians probably will be made public.

This is the first time since the President's heart attack in September 1955 that anywhere near as much as a year has elapsed between his full-scale medical checkups. He had three last year, and his last complete examination was Oct. 27-28, 1956. The doctors reported then that he gave "every appearance of being in excellent health."

Since then he has gone to the hospital twice for brief examinations of the heart and lungs.

This latest examination comes as he faces a new speedup in a working pace already at a more taxing clip than at any time since his heart attack.

When next Veterans Day comes there will be three Unknown Soldiers—symbols of all the unknowns who died in two world wars and Korea. The unknowns of World War II and Korea will be placed in crypts at the tomb on Memorial Day, May 30, 1958.

In Houston, Tex., the nation's oldest living Civil War veteran made plans today to ride in a Veterans Day parade, but relatives said they were not sure he would be able to make it.

Col. Walter W. Williams, who will be 115 Thursday, expressed a desire to ride in an ambulance in the parade here.

Williams is one of two surviving Civil War veterans.

Syria Alerting All Army Units Against Turks

Border Troop Moves
Claimed; Egyptians
Fire Blasts at Jordan

BY THE ASSOCIATED PRESS

Fears of warfare today gripped the Middle East—scene of many a tension and crisis in recent months.

All Syrian army units in the north were ordered on the alert in a show of alarm at what an army spokesman called unusually large Turkish troop movements along the border.

Foreign ministry sources said the cabinet held a two-hour meeting about midnight to consider "the motives of the sudden Turkish activities."

The army spokesman said "large-scale, night-long unusual and unprecedented military movements" of Turkish units took place, and as a result all necessary precautions were being taken by Syria.

This show of alarm about the northern frontier, where Syria and the Soviet Union have been challenging Turkey with making provocative gestures, coincided with a huge demonstration here against King Hussein of Jordan.

County Board OKs Budget

New Figure Near This Year's Sum

The Pickaway County Board of Education has approved a \$26,115 budget for 1958. That is about \$20 more than the 1957 yearly budget figure. The budget has been sent to the State Department of Education for approval.

Included in the new request for funds are \$300 annual salary boosts for Robert Seward, general supervisor, and Miss Lydia DeLong, secretary in the office of George McDowell, superintendent of schools.

The budget also includes a boost for McDowell from \$7,155 this year to \$8,100 next year, and \$60 increases in travel expense money for both Seward and McDowell.

The state will pay for Seward's services and travel expense, an estimated \$7,460 for next year. The balance of the budget, \$18,655, will be paid for by the county schools on a per-pupil basis.

Other items in the 1958 budget are county attendance officer \$40; educational meetings \$100; county board of education, \$400; communications, \$275; postage, \$250; office equipment, \$450; office supplies, \$300; express-drayage, \$20; printing, \$300; repairs for office equipment, \$100; teacher's retirement, \$1,400; employees' retirement, \$400; service fund, \$300, other expenses (diplomas, tests, incitements), \$500.

Ice Cream Store Being Built On E. Main St.

Gail Barthelmas, owner of Barthelmas Auto Parts 582 E. Main St., today announced plans to open a drive-in ice cream parlor in a remodeled house at 590 E. Main St. next to his auto parts store.

The ice cream parlor will be called the "Dairy Bar" and will open in the spring. The building will be approximately 30 feet square facing Route 56 with picture windows along two sides. It will be covered with red brick.

Barthelmas also plans to open a drive-in restaurant in mid-summer adjoining the "Dairy Bar." This enterprise will require considerable filling toward Hominy Creek, Barthelmas said.

A 60-foot ware house is planned at the rear.

Patrolmen Pay Fine

HAMMOND, Ind. (AP) — State police said they would pay a parking fine for one of their patrol cars. They were in such a hurry to make a gambling raid they forgot to put a coin in the meter.

Hardy Fish To Get Own Private Pond

(Continued from Page One) meeting the girls in a beer and wine store two months ago.

Crites said he fell in love with Deanna but had promised to marry Beverly. Deanna was separated from her husband.

Caught in a predicament he apparently couldn't solve and afraid his wife would find out about it, Crites said he began making plans 11 days ago to kill his girlfriends. He bought a .32 caliber revolver, the one used in the slaying.

Four bullets were recovered from Beverly's body and head. One bullet was recovered from behind Deanna's left ear.

Crites, an ex-Navy man and Korean veteran, was admitted to the Veterans Administration Hospital here in September. He stayed 10 days during which time he was treated for "anxiety."

Clay snaked Oswald out of a stream at Kidderminster, 270 miles from here. Wrapped in a dry newspaper, the fish made the trip home in the trunk compartment of Clay's car and stayed there overnight.

The next morning Mrs. Clay, knife poised, was about to start carving Oswald into breakfastlets when he wiggled.

The Clays didn't have the heart to eat the hardy little fellow, so they put him in a bathtub, where he is doing nicely on a diet of grubs and bread crumbs. At first they thought of putting him back in the river, but decided on the pond when their 2-year-old daughter Beverly insisted on keeping him a pet.

"After all Oswald has been through it wouldn't be right to put him back where he might be caught again," Mrs. Clay told a reporter. "He's getting to be a real family pet now, and I'm sure he knows us. Beverly always kisses him goodnight."

Temperature Dips To 17 Degrees

A chilly 17 degrees last night gave the Circleville area its coldest night of the year so far.

After reaching a high of 43 yesterday afternoon, the mercury dipped suddenly during the night. At 8 a. m. today the thermometer was read at 18 degrees.

Today's forecast calls for mostly fair and warmer tonight and Tuesday. Low probably will range in the 30's with a high in the 50's expected tomorrow.

Russians Stamp OK On New Syria Pact

MOSCOW (AP) — The Communist Party newspaper Pravda today announced that the Presidium of the Supreme Soviet has ratified the agreement for economic and technical assistance to Syria.

The announcement did not mention military aid.

The pact was announced Oct. 28. Syria was promised about \$200 million in material and technical assistance for such projects as dams, power stations, road and railway construction, oil exploration and mining.

Oklahomans Showing Pride in Their State

OKLAHOMA CITY (AP) — Oklahomans could pop their vest buttons with official sanction today, the first day of "Pride in Oklahoma Week."

Proclaiming the virtues of the Sooner State will be the order of the day through Saturday, the official end of Oklahoma's 50th birthday celebration.

Loose Barge Speeds Up Death for Old Bridge

OGDEN, Utah (AP) — A runaway

steel barge, loaded with tons of

rock, rammed a 60-foot hole

through the historic Lucin cutoff

railroad trestle Sunday after breaking loose from its tug.

The barge was carrying rock

being used to build a causeway

across the lake, one that will re-

place the 12-mile wooden trestle.

Hope Revived,

(Continued from Page One) checkerboard search area, now broken into two rectangular areas under the new pattern. One is 460 miles long and 115 miles wide and the other is 695 miles long and 172 miles wide. Both straddle the path of the lost plane covered.

Earlier, hope had flickered and faded with a report of the sighting of a yellow dye marker, "a flare and something red" at a spot 425 miles west of the airliner's last position.

Hours elapsed before two ships reported that nothing could be found at that point. A Coast Guard spokesman said re-evaluation of the sighting, reported by a lone airman, indicated it could have been a school of whales instead of a marker, or possibly other fish.

Another hopeful report—that of an oil slick—was being thoroughly checked by surface craft.

The airliner, Romance of the Skies, carried 36 passengers and a crew of eight from San Francisco to Hawaii. At 5:04 a. m. Friday it routinely radioed its position 1,028 miles east of Honolulu. The pilot was supposed to make another routine report at 6 p. m.

He didn't. The plane abruptly, and silently, disappeared.

Americana in 1900-1917 To Be Recalled on TV Show

NEW YORK (AP) — The story of American life between 1900 and 1917 from films made in those years will be a fascinating hour of TV entertainment on Nov. 21 (at 10 p. m. EST) when "Project 20" presents "The Innocent Years" on NBC-TV.

"At first, to find the film sounded like that of proverbial blank wall detective run into on murder cases," says Daniel Jones, chief film researcher for the "Project 20" staff under Henry Salomon.

The film sleuths turned up extraordinary

County Board OKs Budget

New Figure Near This Year's Sum

The Pickaway County Board of Education has approved a \$26,115 budget for 1958. That is about \$20 more than the 1957 yearly budget figure. The budget has been sent to the State Department of Education for approval.

Included in the new request for funds are \$300 annual salary boosts for Robert Seward, general supervisor, and Miss Lydia Delong, secretary in the office of George McDowell, superintendent of schools.

The budget also includes a boost for McDowell from \$7,155 this year to \$8,100 next year, and \$60 increases in travel expense money for both Seward and McDowell.

The state will pay for Seward's services and travel expense, an estimated \$7,460 for next year. The balance of the budget, \$18,655 will be paid for by the county schools on a per-pupil basis.

Other items in the 1958 budget are county attendance officer \$40; educational meetings \$100; county board of education \$400; communications, \$275; postage, \$250; office equipment, \$450; office supplies, \$300; express-drayage, \$20.

Printing, \$300; repairs for office equipment, \$100; teacher's retirement, \$1,400; employees' retirement, \$400; service fund, \$300; other expenses (diplomas, tests, incidentals), \$300.

Ice Cream Store Being Built On E. Main St.

Gail Barthelmas, owner of Barthelmas Auto Parts 562 E. Main St., today announced plans to open a drive-in ice cream parlor in a remodeled house at 390 E. Main St. next to his auto parts store.

The ice cream parlor will be called the "Dairy Bar" and will open in the spring. The building will be approximately 30 feet square facing Route 56 with picture windows along two sides. It will be covered with red brick.

Barthelmas also plans to open a drive-in restaurant in mid-summer adjoining the "Dairy Bar." This enterprise will require considerable filling toward Hominy Creek, Barthelmas said.

A 60-foot warehouse is planned at the rear.

Patrolmen Pay Fine

HAMMOND, Ind. (AP) — State police said they would pay a parking fine for one of their patrol cars. They were in such a hurry to make a gambling raid they forgot to put a coin in the meter.

MARKETS

CIRCLEVILLE HOG MARKETS

Liquor Men Debate Value Of Decanters

Some Dealers Doubt Fancy Bottles Help Sale of Whiskies

By SAM DAWSON

NEW YORK (AP)—The distilling industry today is widely divided as to the sales merits of the decanters which cost them so much. Some say dealers dislike them and customers are bored.

This year some liquor companies are dropping them altogether. Others are offering the public a choice of either the flossy glassware or gaudy prewrapped regular bottles. And some are going in for fancier decanters than ever.

Liquor firms do nearly a third of their year's business between now and New Years. The Department of Commerce says sales in November and December last year came to one billion dollars, with the U.S. Treasury pocketing 100 million in excise taxes.

The average package store is estimated to have carried 60 different brands of whisky in decanters last year. B. C. Ohlandt, vice president of National Distillers Products Co., says dealers were left with 800,000 cases of un-sold decanters, tying up 40 million dollars.

Last year gift sales accounted for three million cases of decanters and 500,000 cases of regular bottles in prewraps. Ohlandt says gift sales this year will rise to four million cases, evenly divided between the fancy glassware and the fancy wrappings.

His company is dropping decanters altogether and going in for prewraps, spending 3½ million dollars for materials.

Brown-Forman Distillers of Louisville, Ky., challenge National's view that customers are tiring of decanters. It says gift decanter sales rose from 29 per cent of total volume in 1955 to 32 per cent last year, and decanters bought for home use rose from 20 per cent of 26 per cent.

Hiram Walker is putting five brands into 46 package variations. Canadian Club is being offered in 22 different gift packages and Imperial is coming in a new hexagonal package and also in two or three bottle combinations.

The company bought 11,000 miles of multi-colored ribbon and 25 million square feet of aluminum foil.

Wines are in on the act, too. Christian Brothers of California package their wines and champagnes in boxes adorned with a picture of their monastery and some wine bottles have pine cones and holiday balls attached to the necks.

Paul Masson Vineyards of California put their wines, champagnes and brandy into pre-wrapped packages along with drinking glasses to fit the liquid contents.

Spotted Alfalfa Aphid Said New Pest in Ohio

WOOSTER (AP)—The Ohio Agricultural Experiment Station reports a louse from the south and southwest has been found on alfalfa grown in Hamilton, Clermont and Brown counties.

It is called the Spotted Alfalfa Aphid, and has been carried to Ohio by the wind, after reaching adjacent states last year.

Researchers will start tests to find the best ways of fighting the pest, which sucks the juice from the plant.

Dayton Woman Held In Slaying of Friend

DAYTON (AP)—Lillie Mae Smith, 25, is being held by police today for investigation of homicide after her boyfriend, Ustel Floyd, 44, was fatally wounded in an argument with her. Officers said Floyd

Butler County Intersection Is Dangerous

HAMILTON, Ohio (AP)—Residents around an intersection of three highways in the Butler County village of Ross have about decided they're living dangerously.

Last July an automobile and a gasoline tank truck collided at the intersection and the ensuing explosion and fire caused \$150,000 damage to homes and business establishments. The fire for a time threatened to wipe out the village.

Early Sunday an automobile went out of control at the intersection and crashed into two houses. Durkin Marshall, 58, a blind pensioner, sleeping in one of the houses, and Mrs. Olive B. Scott, 80, sleeping in the other, narrowly escaped injury.

The automobile driven by Hubert H. Kramer, 21, of Reading, first crashed through the corner of a room of the home of Mr. and Mrs. John E. Wilson. Marshall was sleeping on the other side of the room.

The car then careened across the yard into the front of Mrs. Scott's home. She was sleeping on a couch only about 10 feet from where the automobile finally stopped.

Kramer told Deputy Sheriff Robert Jones he was unfamiliar with the intersection where Ohio 126 and 128 and U. S. 27 come together. He suffered cuts and bruises.

Damage to the houses and the automobile was estimated at \$16,200 and Mrs. Wilson, whose home was threatened in the fire last summer, told newsmen, "We have just about all we can take."

Ohio Dems Set Up New Aid Group

COLUMBUS, Ohio (AP)—A Democratic Advisory Committee has been formed to encourage candidates to run for office on the party's ticket in the 1958 state election. William L. Coleman, Democratic state chairman, announced.

Coleman said Saturday, "The advisory committee will not endorse candidates nor will it make any attempt to prevent any potential candidates from entering the primaries."

Murray D. Lincoln, president of Nationwide Insurance Companies of Columbus, was named temporary chairman of the committee by Coleman.

Other committee members were listed as:

Lockwood Thompson of Cleveland, John A. Wiethe of Cincinnati, Hamilton County chairman; George D. Nye of Waverly, former lieutenant governor; Rep. Frances McGovern (D-Summit); Senate Minority Leader Joseph W. Bartunek (D-Cuyahoga).

Dwight Wise, Fremont farmer and chairman of the Democratic Farm Committee; A. B. Flack of Youngstown, state central committeeman; John P. Kelly, Lucas County chairman; John L. Francis, Columbus attorney.

Coleman said he will be an ex-officio member along with Albert A. Horstman of Dayton, national committeeman; Mrs. Helen Gundett of Van Wert, national committeewoman, and Harry R. Meredith, chairman of the Democratic State Central Committee.

Hawaii Is Land of Spirit, Friendship

By FRANK KUCHIRCHUK
Central Press Association Writer

LEIS DAYS — Visitors to Hawaii receive a greeting different than at any other spot in the world — flower leis, symbolizing the spirit of friendship prevailing throughout the islands.

For the islanders themselves, the unique custom has other mean-

ings. The lei substitutes for cor-sages. And it is a token of honor when presented to guest speakers, school graduates, and even political candidates during political

campaigns. Always it is given in a spirit of friendship. With the lei usually goes a kiss.

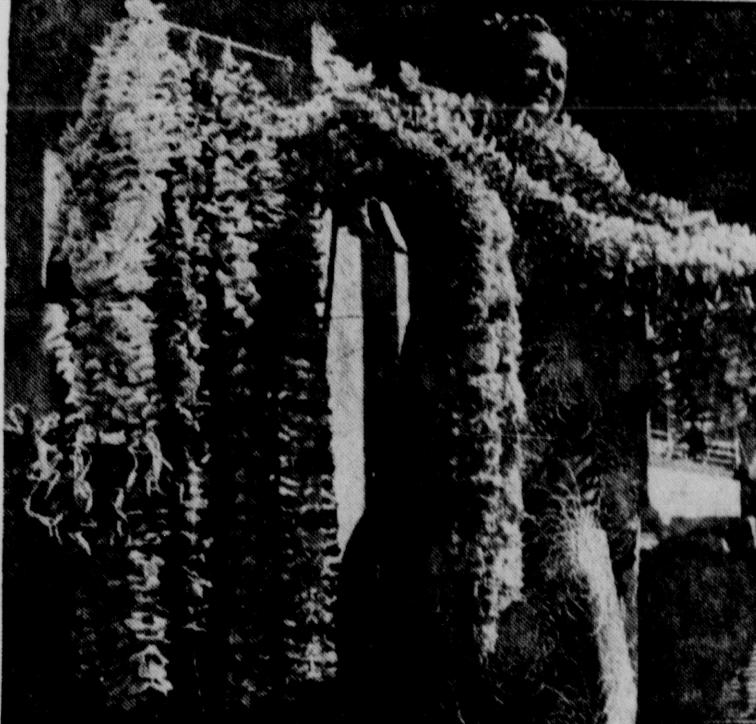

Leis are made of fragrant flow-

ers strung on a double thread with

a special needle. Island flowers used include carnations, gingers, pikas, plumerias and vandas. However, those made of vanda orchids are the favorite of visitors. From 250 to 300 of these tiny orchids are required for one string, so most leis are made commercially rather than at home. They sell at moderate prices.

An island girl strings her own leis for a hula show.

Arriving and departing visitors to Hawaii receive free leis, but many vendors also are on hand to sell their lovely wares.

Pretty Mae Beimes is Hawaii Visitors bureau Poster Girl.

Children's Interpretations Can Be Startling to Teacher

Editor's Note: The following article was written by Mildred S. Fenner, editor of the National Education Assn.

By MILDRED S. FENNER
(For Jane Eads)

Miss Pratt's shoes look too tight.

Mr. Kingsley talks too much. Mrs. Morrison smiles the nicest of anybody. And so on for 997 other items of similarly world-shaking importance.

From now until June, nearly 40 million school boys and girls will be bringing home accounts of their teachers and of what happened at school. News will be flowing in the opposite direction, too.

"All right, but I like the other first-grade teacher better."

"Why?"

"Oh," said Pam. "The other teacher's room is next door to the girls' bathroom."

Pam unwittingly reminded me that children's interpretations can be startling. Fortunately are the parents whose dinner table conversations often centers on school. But as you season your meal tonight, save a grain of salt for the tales you hear!

The more experience she's had with children, the less likely the teacher is to take literally these garbled scraps of fact and fiction which Johnny and Susie present in the belief they are reporting with strictest accuracy. She only hopes that you will be as charitable in your interpretation of the revelations the children bring home to you.

When Johnny confides that "My daddy has gotten a raise and he's going to make \$15 a month now," she understands that \$15 (or perhaps \$115) represents the raise and not the salary. She hopes you'll give her the benefit of a doubt, if, for example, your kindergartner reports that "Miss Blake says she's sick of our class."

One father did give Miss Blake

the benefit of a doubt and was glad he had when he learned Miss Blake had actually said she was homesick for the class over the weekend.

Recently I asked 6-year-old Pamela down the street the inevitable "How do you like your teacher?"

"All right, but I like the other first-grade teacher better."

"Why?"

"Oh," said Pam. "The other teacher's room is next door to the girls' bathroom."

Pam unwittingly reminded me that children's interpretations can be startling. Fortunately are the parents whose dinner table conversations often centers on school. But as you season your meal tonight, save a grain of salt for the tales you hear!

Gasoline, Sales Taxes Being Divided in Ohio

COLUMBUS (AP)—Cities, counties and townships in Ohio will share \$2,852,185 in gasoline tax funds and \$1,997,294 in sales tax money this week, State Auditor James A. Rhodes reports.

Each county will receive about \$20,000 and each township about \$800 in gasoline tax money, Rhodes said. He gave no breakdown of sales tax distribution. Gas tax money is used for street purposes and sales tax funds for general operating expenses.

One father did give Miss Blake

the benefit of a doubt and was glad he had when he learned Miss Blake had actually said she was homesick for the class over the weekend.

Antioch College Gets \$400,000 for Dorm

WASHINGTON (AP)—A loan of \$400,000 to finance a dormitory at Antioch College, Yellow Springs, Ohio, has been announced by the Community Facilities Administration.

Antioch College will receive about \$20,000 and each township about \$800 in gasoline tax money, Rhodes said. He gave no breakdown of sales tax distribution. Gas tax money is used for street purposes and sales tax funds for general operating expenses.

The dormitory will house 92 men students.

Remember ... Then Look Ahead

Veterans Day is traditionally a day of looking back to the deeds of courageous fighting men, many of whom gave everything to guarantee this nation a free existence in a world constantly threatened by the warped minds of oppressors.

Since the day 39 years ago when November 11 became a date indelibly marked in the annals of world history, the hope of men that the Versailles peace treaty marked the end of the "war to end all wars" has been nullified by two major conflicts and many lesser ones.

Judging by the record man has made for himself since the end of World War I, he is no more capable of preventing wholesale destruction of his fellow beings at the half-way mark in the twentieth century than he was at its inception. Or is he?

To be sure, the world today is in much

the same condition it was prior to both of the past world wars, probably worse. Today's oppressors — the Kremlin masters, whoever they may be at the moment — would make the Hitlers of the past turn green with envy at the ease with which they have subjected more than half the world's population to captivity.

There is one factor now present, however, which fighting men of the past did not face. That is the almost certain knowledge that any global war of the future could cause the complete annihilation of the human race.

As it is fitting during the parades and memorial services of Veterans Day 1957 to remember the past deeds of America's servicemen, it is also a time for each American to reflect upon his share of the responsibility for preventing another aggressor from starting a world holocaust.

No Champagne Poured on Toes

By Hal Boyle

NEW YORK (AP) — As any ordinary happy man does, I awoke as usual the other morning with the pleasurable sensation that my wife was pouring champagne on my toes.

I awoke and discovered, as usual, that my wife was not pouring champagne on my toes. "Do you know what day this is?" she asked.

She thought I didn't really know what she had in mind. The trouble for her is that I did. As a matter of fact I had been brooding about it for 20 years.

"This, my dear," I assured her, "was the day I destroyed you forever, just two decades ago.

"You were a carefree, bare-minded working girl, and I did the most cruel thing a man can do to an innocent girl with a purpose in this world — to take her away from her job."

"Well, you did," she said. "So I did," I answered. "And industry is the poorer, but I am the richer."

"Don't you think we should celebrate?"

"Celebrate what?"

"This is an occasion."

"I'm not."

"No, you're not!"

"But you are!"

"But do you really mean it? I mean from the heart?"

"Well, I'd rather have you than any Mau-Mau I know."

"You're sure?"

"Sure. Will you do me a favor?"

"What?"

"Is there any champagne in the icebox?"

"Yes. Why?"

"Will you open a bottle and pour it slowly over my toes?"

"No, I won't. And why do you ask such a crazy thing?"

"Because I know you wouldn't."

"Do you really think this is the way to celebrate a 20th wedding anniversary?"

"No, not if you don't wake me up by pouring champagne on my toes. This is my anniversary, too."

"Then marry another man on

The Cost of Bad Training

By George Sokolsky

Let us look at it another way: There is no national monopoly on brains or ability. It is a question of the will to achieve, the will to survive, the belief in the purposes of collective and individual life. The two Sputniks are not a product of Marxism or of Leninism, but of the knowledge, capabilities and application of a group of men to an objective — to the objective of national pride and national survival.

That has been so throughout the history of mankind. We built a great nation not by security but by endless, back-breaking labor — labor of the mind and labor of the body. It is not only labor that counts but the capacity to sacrifice and subordinate oneself to a cause and a purpose.

A friend recently told me of a young lady who came for a good job, one for which she would be over-paid, if merit were the standard, but who would not take the job because of the requirement of working half a day on Saturday. That interfered with her social life. Her ancestors worked harder than that to build a competence in a free society.

Another person told me of an instance in which a trustee employee walked off a job without warning or notice because she was weary of her private associations and decided to leave town. Another told me of the failure of employees to accept any responsibility at all, doing just enough work not to justify

dismissal. Such stories are accepted as normal these days.

But that is not the spirit that produces the Sputnik. Recently I listened to some youngsters who went into various ROTC's and all were discouraged because the terms of enlistment, of service, of promotion are constantly being changed, so that nobody can tell from one year to another where he stands. The arbitrariness of such changes discourages many young people from joining the services because they are more willing to take a chance on not becoming conscripts when the dividends for putting in four years of hard work during college years are so uncertain.

This weakness in our military organization is not limited to the ROTC. It runs all through the special organizations which are doing scientific work, where the pay is meager and the continuance of work uncertain. Scientists and technicians take these jobs because they want to be in on the developments but as soon as private industry calls, as they answer the call, it is not that they are unpatriotic; it is that their government regards them as secondary persons.

One of the problems that every school, every home, every employer encounters is the lack of respect, of self-discipline in most young people. It is to be noted in dress, in speech, in attitude. It often borders on insolence and when insolence is regarded as a mark of freedom

and individuality, it is an index to social decay. The Russians have a term for it, "hooliganism," and the social offense is punishable as it should be. A good spanking early enough or a clip on the jaw later might not altogether cure but it could avert disaster.

What happens to a society of undisciplined individuals is that there is a substitution of values, a vulgarization of taste. When Sputnik II was orbited, Ingrid Bergman, an actress, announced a return to Hollywood. Some newspapers equated these two items as of equal value, although Sputnik II is probably the most revolutionary event in history and Ingrid Bergman was just a press agent's blur.

In fact, if Sputnik did its nasty business, there would be no actresses, no you and no me. For what Sputnik eventually can do is to throw a beam upon any part of the Earth and destroy whatever the beam strikes. Imagine what can happen with a dozen Sputniks orbiting the Earth or bombarding the moon or bombarding each other up in the distant yonder — and what will that do to us?

So while we ponder that, we are also supposed to wonder about the relations of an actress to a husband who has been violently advertised as having gone astray in India. I have, I hope, a sense of the humorous and the funny, but there is nothing funny about Sputnik. To the undisciplined mind, anything is good for a laugh but reality.

Four baby bears have been shipped to a New Mexico Air Force missile development center. Does this mean, asks Milt, the sterling printer, we may some day be gazing skyward at a Cubnik?

Brins traveling in outer space wouldn't be a new start. That a Great Bear constellation has been around a long time.

The pooh-carrying Soviet sputnik is said to issue a radio signal that's steady and monotonous. Like a dog baying?

A huge St. Bernard dog in Baltimore willingly climbs stairs but positively refuses to descend them. Smart pup — going downstairs leads to the door and out into this mighty chilly November world.

At least 70 varieties of seaweed can be eaten — Factographs, By somebody else — not us.

A Dutch scientist has developed a language for use in speaking to inhabitants of other planets. What's Martian for "sputnik"?

"You were a carefree, bare-minded working girl, and I did the most cruel thing a man can do to an innocent girl with a purpose in this world — to take her away from her job."

"Well, you did," she said. "So I did," I answered. "And industry is the poorer, but I am the richer."

those days."

"But you aren't at all altogether satisfactory."

"This is an occasion."

"Living with you, every day is an adventure. Being married to a Mau-Mau might offer the opportunity of an occasion. Being married to you every moment, even after 20 years has its strangeness."

"Well, I didn't have to marry you. I could have married any number of men. And why I picked you I don't know. And who else could you have married, anyway?"

"A Mau-Mau."

"Which Mau-Mau?"

"Any Mau-Mau."

"Would you rather have her?"

"Not after knowing you."

"Do you think I am like a Mau-Mau?"

"Which Mau-Mau?"

"You don't make sense."

"Do you want me to make sense?"

"Some days."

"Then marry another man on

those days."

"But you aren't at all altogether satisfactory."

"I'm not."

"No, you're not!"

"But you are!"

"But do you really mean it? I mean from the heart?"

"Well, I'd rather have you than any Mau-Mau I know."

Beta Sigma Phi Sorority Holds Auction Sale

Meeting Includes Program on Prose

Golden slippers and pink poodles went the way of the auctioneer's gavel at the "White Elephant" sale held at the conclusion of the monthly business and cultural meeting of the Kappa Alpha Chapter of the Beta Sigma Phi Sorority, Thursday evening in the chapter rooms.

During the business meeting, Mrs. Orville West, service committee chairman, outlined plans for the Thanksgiving basket which will be given to a worthy needy family.

Mrs. Olen Black, chapter president, read a suggestion from international office that "Systic Fibrosis" research be adopted as a recipient of the International Endowment Fund. The Chapter accepted this suggestion and also voted to give financial support to the Magnetic Springs Polio Rehabilitation Center which is the Ohio State Project.

Following the business meeting, Mrs. Miles Reefer and Mrs. Richard Robbins gave an interesting program on "Prose". Mrs. Reefer defined prose and read an excerpt from a favorite selection. Mrs. Robbins traced the history and growth of prose from the early Anglo-Saxon times. A game prize was awarded to Mrs. George Hamrick by the program committee.

The "White Elephant" Sale proved to be a treasury booster as

Berger Hospital Bazaar Chairmen Make Final Plans

All Guilds Cooperating

The Berger Hospital General Guild Bazaar which will be held Friday from 9:30 a. m. to 9 p. m. in the lobby of the American Hotel will climax months of hard work by all the guilds which make up the General Guild.

The bazaar, to be Nov. 15 this year, will feature the creative work of practically every woman in Circleville. Much thought and many hours of labor have gone into making the articles that will be for sale.

Mrs. Charles Thompson and Mrs. Milton Patterson, co-chairmen of the bazaar, have announced that plans are complete and all guilds have reported articles will be ready for the sale.

The special committee working closely with the co-chairmen are Mrs. John Bowers, Mrs. Jasper Hedges, Mrs. David Fullen, Mrs. David Orr and Miss Mary Virginina Crites.

The guild named as having the most artistically decorated booth will be inscribed on a special plaque which hangs in the hospital. This year articles will be sold from card tables set up in the hotel lobby. Decorations will be the attractive wares which each guild has for sale. Tables will be judged as booths have been in the past.

Gaynell M. Brobst Charles Huffer To Wed Nov. 30

The engagement of Mrs. Gaynell Morrison Brobst and Mr. Charles R. Huffer has been announced by her father Mr. Eugene V. Morrison, 2412 Cleveland Ave. Columbus.

Mrs. Huffer is the son of Mr. and Mrs. Roy Huffer, Circleville. The bride-elect is employed as secretary in the Ohio Attorney-General's office. Mr. Huffer is an employee of Yates Buick Co., Circleville.

The open church wedding will be an event of Nov. 30 at the First Methodist Church, Circleville.

pletely turned out, make-up in place, hair combed.

2. She freshens up before lunchtime. After cleansing her face, she puts on cologne to help remove excess cream. Then, on goes new make-up.

3. She keeps a purse flacon of perfume available for use during the day.

4. Her nails are always well-manicured. Polish is never chipped or cracked.

5. She keeps good grooming supplies—including extra nylons and clean white gloves—in a desk drawer. She's ready for any emergency that might spoil her well-groomed appearance.

6. Her wardrobe is carefully selected and, since she systematically sends clothes to the cleaner or laundry and makes repairs as they're needed, she always has something fresh to wear.

SHIRTWAIST FROCK — The ever popular shirtwaist frock assumes new importance when done in an urban manner in a sheer all-wool jersey crepe.

Beauty

Career Girl Sets Pace In Grooming

By JEANNE D'ARCY
(King Features Syndicate)

Career girl wardrobes are growing more elegant. Separates, the well-tailored suit, blouses or sweaters and skirts are still seen, but the emphasis is on "basic" dresses that are slightly more formal.

Wool dresses with cut-out col-

lars are big favorites for office wear. They're dressy-looking but not too much so. They make girl look like a girl—and that's never been a drawback in business or anything else.

The career girl seems to set the pace for all other office workers and any woman who holds a job could profit by taking a few notes from her good-grooming book.

1. She reports for work com-

Past Presidents Club of DUV Elects Officers

All officers were re-elected for the coming year when the Past Presidents Club of Daughters of the Union Veterans of the Civil War met at the home of Mrs. C. O. Kerns, E. Main St. Friday evening. Mrs. Irene Jenkins was assuming hostess.

Officers for the new year are: Mrs. E. L. Tolbert, president; Mrs. Kerns, vice-president; Mrs. James Trimmer, secretary-treasurer; Mrs. Cora Coffland, floral secretary and Mrs. W. E. Pickens, press correspondent.

Mrs. Talbert was in charge of the business session. She opened the meeting by reading an article "Meditation" after which members repeated the Pledge of Allegiance and the club motto.

On the program which was conducted by Mrs. Frank Webb, a number of selections were given. Mrs. Webb gave, "Prayer for Thanksgiving"; Mrs. E. A. Smith, "The First Thanksgiving"; Mrs. es.

Hospital Guild 35 To Hold Sewing Session Thurs.

Berger Hospital Guild 35 will hold a final sewing session at 8 p. m. Thursday at the home of Mrs. J. W. O'Donnell, 1016 Lynwood Ave. Members will be finishing articles for the Berger Hospital Bazaar which is to be held Friday.

Tolbert, "At the Peace Table" and Mrs. Pickens, "America".

Mrs. Kerns served as auctioneer for the sale of articles brought by various members. This is a regular feature of the club meetings.

Bouquets of roses decorated the Kerns' home. They were picked from Mrs. Kerns' garden.

Refreshments were served in the living room on individual trays.

The members voted to discontinue meetings until next March at which time Mrs. Coffland and Mrs. Jenkins will serve as hostesses.

Beta Sigma Phi Sorority Holds Auction Sale

Meeting Includes Program on Prose

Golden slippers and pink poodles went the way of the auctioneer's gavel at the "White Elephant" sale held at the conclusion of the monthly business and cultural meeting of the Kappa Alpha Chapter of the Beta Sigma Phi Sorority, Thursday evening in the chapter room.

During the business meeting, Mrs. Orville West, service committee chairman, outlined plans for the Thanksgiving basket which will be given to a worthy needy family.

Mrs. Olen Black, chapter president, read a suggestion from international office that "Systic Fibrosis" research be adopted as a recipient of the International Endowment Fund. The Chapter accepted this suggestion and also voted to give financial support to the Magnetic Springs Polio Rehabilitation Center which is the Ohio State Project.

Following the business meeting, Mrs. Miles Reefer and Mrs. Richard Robbins gave an interesting program on "Prose". The Chapter accepted this suggestion and also voted to give financial support to the Magnetic Springs Polio Rehabilitation Center which is the Ohio State Project.

During the business meeting, Mrs. Miles Reefer and Mrs. Richard Robbins gave an interesting program on "Prose". The Chapter accepted this suggestion and also voted to give financial support to the Magnetic Springs Polio Rehabilitation Center which is the Ohio State Project.

The bride is the daughter of Mr. and Mrs. Robert M. Dwyer, Route 1, Bainbridge, and the bridegroom the son of Mr. and Mrs. Wayne Fee of Route 2, Circleville.

The bride approached the altar on the arm of her father. For her wedding she wore an ice blue satin ballerina length gown. Her circular veil was caught to a matching ice blue bandole. She carried a white Bible ornamented with an arrangement of white rosebuds.

Miss Alberta Carpenter, Circleville, was maid of honor. She wore a gown of royal blue ballerina length with matching head band and circular veil.

Mr. Robert Fee, Circleville, was best man for his brother.

Ushers were Mr. Richard Everman, Greenfield, cousin of the bride and Mr. William Fee, Circleville, a brother of the bridegroom.

Mrs. Dwyer wore a pink suit with black accessories for her daughter's wedding. Her corsage was of white chrysanthemums.

A reception was held in the church social room following the wedding.

The bride is a graduate of Buckskin High School and is an operator of the Ohio Consolidated Co., Circleville.

The bridegroom is a graduate of the Circleville High School and is an employee of the Holderman Construction Co. in Circleville.

The couple will live at 110½ E. Main St. ***

Eastern Star
To Hear
Reports, Tuesday

Circleville Chapter No. 90, Order of Eastern Star, will meet Tuesday evening, at 8 p. m. at Masonic Temple. There will be election of officers, annual reports, and report of the Grand Chapter Session held last month in Cincinnati.

Salem WSCS
Meets in Church

Salem Methodist Women's Society of Christian Service met Thursday evening at the church. Serving as hostesses were Mrs. Paul Stevens, Mrs. Harold Riffel and Mrs. Clyde Eakin.

Twenty members were present for the affair. The opening hymn was, "We Gather Together".

Mrs. James Alcorn read the scripture and conducted the study class. Mrs. Vera Miller was in charge of devotions. The Rev. Harold Cowdrick offered prayer.

Browns Proving They Can Win Without Otto

Tom O'Connell Making Clevelander Forget About Great Graham

By THE ASSOCIATED PRESS

Otto Graham? Who he?

The Cleveland Browns, who bristled with an aura of invincibility while Uncle Otto was lofting TD passes, were supposed to turn into the National Football League's patsies when he made his second "retirement" permanent at the close of the 1955 season.

But Coach Paul Brown went the prognosticators one better and installed the veteran George Ratteman at the helm. He filled in ably until a knee injury signaled an end to his career.

A dejected Brown put out a call for available talent and Tommy O'Connell, former Illinois great, answered it.

It was O'Connell in the quarterback slot since late 1956 and he's beginning to make them forget the fabulous Graham.

O'Connell tossed two touchdown passes Sunday as the Browns maintained their hold on the Eastern Division lead with a 24-0 victory over Pittsburgh's Steelers.

This, coupled with San Francisco's 37-24 loss to the Los Angeles Rams left the Browns with the best mark in the league, 6-1.

Despite their loss, the 49ers continued to pace the Western Conference with a 5-2 record, one hop ahead of Baltimore and Detroit at 4-3.

The Colts remained in contention with a 21-17 victory over Washington and the Lions dropped Philadelphia 27-16. In the East, Giants (5-2) stayed right behind the Browns by defeating Chicago's Cardinals 27-14.

In the other game on the full program, Chicago's Bears beat Green Bay, 21-14.

Lou Groza opened the Cleveland scoring with a 34-yard field goal, his eighth this season. Then O'Connell took over. He completed 7 of 11 passes for 156 yards and touchdowns to Ray Renfro and Preston Carpenter.

Ten-year veteran Bobby Layne, his injured ribs strapped with tape, came off the bench to win it for the Lions. He threw three scoring passes, kicked two field goals and added a trio of conversions. The Eagles were leading 3-0 when Layne pulled himself together. At one point in the second quarter, Layne completed six in a row, every other one a TD.

And coach Buddy Parker of the Pittsburgh Steelers believes the Browns will win the eastern division of the National Football League.

Parker, who left the Detroit Lions just before the season opened to assume the Steeler helm, said after the contest:

"I believe the Browns will go right ahead and win it all."

Brown said he wasn't looking any further than next Sunday's game at Washington, but that he was "happy with our defensive team. It really is a snootful."

Although Earl Morrall completed 15 of 33 passes for 193 yards, the defensive team kept the Steelers away from the goal line, intercepted two passes in crucial spots and grabbed two fumbles.

Defensive halfback Don Paul converted one fumble into an 89-yard run for Cleveland's final score. The big quarterback of the Browns, did a fine job, Brown said. The former Illinois star completed seven of 11 passes for 156 yards and two touchdowns.

The Cleveland coach also had high praise for Morrall, the former Michigan State star who had piloted Pittsburgh to four wins in six starts up to Sunday.

"We kept a lot of pressure on Morrall, but he still completed a lot of passes," Brown said. "He could be a lot better with more help from up front, but he gets a pretty good job done anyway."

Lou Groza, the sterling place-kicker, actually won the game in

Steamin' Wins New York Race, Sets New Mark

Circleville's Steamin' Demon, owned by George W. Van Camp, won a \$4,375 stake at Roosevelt Raceway Nov. 1 — Demon's first victory in over a month.

Although Steamin' has had difficulty winning recently, he's still racing the best of his career. During his last few starts he has been scoring out of the seven and eight holes against horses of nearly equal speed—an almost unsurmountable handicap.

His Roosevelt victory was paced in 2:05 over a muddy track. Dark Shadow was second and Southern Prince third in the stake.

Steamin' posted his best time ever at Lexington, Ky., last month—a standout 1:59.4 time trial in bad weather. That mark equals the record of his sire, Demon Hanover, who recently sold for record price for harness horses.

Steamin's 1:59.4 is not his fastest time, however. He paced a mile in 1:58.1 at Vernon Downs last month also, but placed fourth in a race that went in 1:58. In that event he started from the eighth position and raced outside most of the way.

Texas A&M Utilizes Few Players on Field

COLLEGE STATION, Tex. (AP) — Texas A&M, the nation's No. 1 team, sped through its eighth straight victory Saturday with 10 boys getting in 40 to 50 minutes duty apiece, as usual.

You have to be tough to wear the moleskins of Aggieland. Never more than 28 players get into a game and 13 of those do about 90 per cent of the playing.

Philadelphia Negro Cops Golf Turney

LONG BEACH, Calif. (AP) — Philadelphia's Charlie Sifford won a "sudden death" playoff for first money in the \$11,500 Long Beach Open Golf Tournament, beating Eric Monti of Los Angeles.

the opening period with a 34-yard placekick—his eighth in 12 tries this season. It came just after O'Connell had hit Ray Renfro with a 36-yard pass. Groza also booted the conversions after all three touchdowns, for a 14 of 14 record this year. His 38 points lead the Browns.

The Browns scored in each quarter, getting Groza's placekick in the first and a touchdown in each of the others. Cleveland's second win over Pittsburgh—the other was a 23-12 effort Oct. 5—practically wrecked any title hopes the Steelers entertained as it dropped their record to 4-3.

O'Connell hit speedy Renfro, who was behind the Pittsburgh secondary all day, with a 49-yard scoring pass on the first play of the second quarter, ending a three-play 58-yard surge.

The Browns took the second half kickoff on an 81-yard six-play journey to the end zone, with O'Connell passing 13 yards to Preston Carpenter for the payoff. Paul's fourth-period run with Billy Wells fumble—after Hugh Lenny Ford, Cleveland defensive end, had knocked the ball loose—wound it up.

Browns Proving They Can Win Without Otto

Tom O'Connell Making Clevelander Forget About Great Graham

By THE ASSOCIATED PRESS

OTTAWA, Ontario: Who he?

The Cleveland Browns, who bristled with an aura of invincibility while Uncle Otto was loafing TD passes, were supposed to turn into the National Football League's patsies when he made his second "retirement" permanent at the close of the 1955 season.

But Coach Paul Brown went the prognosticators one better and installed the veteran George Ratnerman at the helm. He filled in ably until a knee injury signaled an end to his career.

A dejected Brown put out a call for available talent and Tommy O'Connell, former Illinois great, answered it.

It's been O'Connell in the quarterback slot since late 1956 and he's beginning to make them forget the fabulous Graham.

O'Connell tossed two touchdown passes Sunday as the Browns maintained their hold on the Eastern Division lead with a 24-0 victory over Pittsburgh's Steelers.

This, coupled with San Francisco's 37-24 loss to the Los Angeles Rams left the Browns with the best mark in the league, 6-1.

Despite their loss, the 49ers continued to pace the Western Conference with a 5-2 record, one hop ahead of Baltimore and Detroit at 4-3.

The Colts remained in contention with a 21-17 victory over Washington and the Lions dropped Philadelphia 27-16. In the East, Giants (5-2) stayed right behind the Browns by defeating Chicago's Cardinals, 27-14.

In the other game on the full program, Chicago's Bears beat Green Bay, 21-14.

Lou Groza opened the Cleveland scoring with a 34-yard field goal, his eighth this season. Then O'Connell took over. He completed 7 of 11 passes for 156 yards and touchdown to Ray Renfro and Preston Carpenter.

Ten-year veteran Bobby Layne, his injured ribs strapped with tape, came off the bench to win it for the Lions. He threw three scoring passes, kicked two field goals and added a trio of conversions. The Eagles were leading 3-0 when Layne pulled himself together. At one point in the second quarter, Layne completed six in a row, every other one a TD.

And coach Buddy Parker of the Pittsburgh Steelers believes the Browns will win the eastern division of the National Football League.

Parker, who left the Detroit Lions just before the season opened to assume the Steeler helm, said after the contest:

"I believe the Browns will go right ahead and win it all."

Brown said he wasn't looking any further than next Sunday's game at Washington, but that he was "happy with our defensive team. It really is a smooth."

Although Earl Morrall completed 15 of 33 passes for 193 yards, the defensive team kept the Steelers away from the goal line, intercepted two passes in crucial spots and grabbed two fumbles.

Defensive halfback Don Paul converted one fumble into an 89-yard run for Cleveland's final score. The big quarterback of the Browns, did a fine job, Brown said. The former Illinois star completed seven of 11 passes for 156 yards and two touchdowns.

The Cleveland coach also had high praise for Morrall, the former Michigan State star who had piloted Pittsburgh to four wins in six starts up to Sunday.

"We kept a lot of pressure on Morrall, but he still completed a lot of passes," Brown said. "He could be a lot better with more help from up front, but he gets a pretty good job done anyway."

Lou Groza, the sterling place-kicker, actually won the game in

Steamin' Wins New York Race, Sets New Mark

Circleville's Steamin' Demon, owned by George W. Van Camp, won a \$4,375 stake at Roosevelt Raceway Nov. 1 — Demon's first victory in over a month.

Although Steamin' has had difficulty winning recently, he's still racing the best of his career. During his last few starts he has been scoring out of the seven and eight holes against horses of nearly equal speed—an almost unsurmountable handicap.

His Roosevelt victory was paced in 2:05 over a muddy track. Dark Shadow was second and Southern Prince third in the stake.

Steamin' posted his best time ever at Lexington, Ky., last month — a standout 1:59.4 time trial in bad weather. That mark equals the record of his sire, Demon Hanover, who recently sold for a record price for harness horses.

Steamin's 1:59.4 is not his fastest time, however. He paced a mile in 1:58.1 at Vernon Downs last month also, but placed fourth in a race that went in 1:58. In that event he started from the eighth position and raced outside most of the way.

Texas A&M Utilizes Few Players on Field

COLLEGE STATION, Tex. (AP) — Texas A&M, the nation's No. 1 team, sped through its eighth straight victory Saturday with 10 boys getting in 40 to 50 minutes duty apiece, as usual.

You have to be tough to wear the moleskins of Aggieland. Never more than 28 players get into a game and 13 of those do about 90 per cent of the playing.

Philadelphia Negro Cops Golf Turney

LONG BEACH, Calif. (AP) — Philadelphia's Charlie Sifford won a "sudden death" playoff for first money in the \$11,500 Long Beach Open Golf Tournament, beating Eric Monti of Los Angeles.

At the opening period with a 34-yard placekick — his eighth in 12 tries this season. It came just after O'Connell had hit Ray Renfro with a 36-yard pass. Groza also booted the conversions after all three touchdowns, for a 14 of 14 record this year. His 38 points lead the Browns.

The Browns scored in each quarter, getting Groza's placekick in the first and a touchdown in each of the others. Cleveland's second win over Pittsburgh — the other was a 23-12 effort Oct. 5 — practically wrecked any title hopes the Steelers entertained as it dropped their record to 4-3.

O'Connell hit speedy Renfro, who was behind the Pittsburgh secondary all day, with a 49-yard scoring pass on the first play of the second quarter, ending a three-play 58-yard surge.

The Browns took the second half kickoff on an 81-yard six-play journey to the end zone, with O'Connell passing 13 yards to Preston Carpenter for the payoff. Paul's fourth-period run with Billy Wells fumble — after Hugh Lenny Ford, Cleveland defensive end, had knocked the ball loose — wound it up.

Rocket Scientist Outlines How U. S. Can 'Catch Up'

Editor's Note: Director of the development operations division of the Army's Redstone arsenal, answers questions in the minds of many Americans.

By THE ASSOCIATED PRESS
How can the United States catch up with Russia's lead in the race into space?

In the opinion of Dr. Werner von Braun, neither a project like the Manhattan, which developed the A-bomb during World War II, nor the release of great sums of money would help much at this stage.

But science could use a great deal more money in basic research and in some allied fields where there is no current need of a crash program, Dr. von Braun said in an exclusive question and answer article for The Associated Press.

The scientist headed up development of the German V2 rocket which battered London during the war. In recent years, he has been in charge of Army research which has led to the Jupiter-C, designated last week to carry in American satellite into space.

Army scientists have said officially that the Jupiter could have a satellite into its orbit before the Russians shot off their first one early in October, had the administration given it permission.

Until last week, getting a satellite aloft has been solely in the sphere of the Navy's Vanguard project.

Answering a question as to whether a Manhattan-type crash program would help overcome Russia's lead, Dr. von Braun said: "In the missile field . . . we have practically all the facilities we can intelligently use. Several projects are handled by several teams, each of which is in a different geographical location. Any attempt to dislocate or combine these teams must necessarily lead to immediate interruption of the work, with resultant delays."

About more money:
"I believe that, by and large, our five key ballistic missile programs (Jupiter, Thor, Polaris, Atlas and Titan) could not be speeded up appreciably by increases in funds . . ."

"This statement does not apply to many badly neglected fringe areas of our ballistic missile and satellite programs. First and foremost, there is a crying need for more money for basic and applied research in these areas."

"Secondly, while adequate funds are available for the clearly defined missile weapons systems, there is never enough to 'advance the art.' A typical example is that we don't have a real powerful rocket engine today simply because none of our present crash missile programs need it. But in order to beat the Russians in the race for outer space we absolutely need it—and the development of such an engine requires several years."

Dr. von Braun made it clear that if the U. S. is to overtake

Expense Item Policy Told by Tax Agency

WASHINGTON (UPI)—The Internal Revenue Service says it will handle expense account items on the great bulk of 1957 income tax returns just as it has handled those in past years.

It didn't say that those who have neglected to list such items in the past can continue to ignore them safely. The law has required since 1921 that they be listed.

But the service and the Treasury Department said in a joint statement: "No more detailed records will be required for 1957 than have been needed in the past. In fact, the instructions on expense accounts for 1957 are identical with those issued in 1954, 1955 and 1956."

The law requires anyone on expense account to list his reimbursement as income and to itemize the expenses for which he was paid, but for 36 years the fellow with a small expense account has paid little attention to the requirement. And the revenue service itself usually hasn't bothered to check.

But the word went out last week that closer scrutiny would be given to expense accounts this year, especially those which count up to sizeable figures.

Baby Is Strangled By Tuto Window

KANSAS CITY, Kan. (UPI)—Lucinda Lynn Howell, 22 months old, was strangled Sunday night when her mother rolled up the window of an automobile.

Sheriff's officers said Mrs. Vega M. Howell, 25, told them she was sitting in the front seat of the car with a neighbor and chatting with relatives standing alongside. Three children were playing in the back seat.

There was a draft through a rear window so she reached back and rolled up the glass without looking. She did not see Lucinda Lynn had stuck her head out.

Russia in the satellite and missile fields, there are several things which must be done:

"In the ballistic missile field the United States, about two years ago, embarked into an all-out crash program which will be difficult to substantially accelerate beyond its present pace. In the satellite field, we need a well-planned, long-range national space flight program.

"This program must be backed up by a firm budget which permits its steady prosecution over a period of several years. I think it would be well over five years before we could catch up with the Soviets."

Dr. von Braun was asked about the training programs for scientists in Russia and the United States, and said:

"I believe that the professional quality of a young American physicist or engineer, fresh from the

university, is at least as high as that of his Russian counterpart. But we do not provide sufficient opportunity for these young scientists and engineers to accrue a sufficient number of consecutive years in missile development to adequately enhance their practical experience."

Explaining why the U. S. trails Russia, Dr. von Braun said:

"There was no ballistic missile development program in the United States between 1945 and 1951 because there was no obvious need for it, no interest for it, and no money for it."

Von Braun worked on U. S. missile research from 1945 on. He and 400 colleagues had fled to Bavaria to escape from Russian capture and had given themselves up to American forces.

He now heads 130 former German missile scientists at the Redstone Arsenal.

Von Braun said he thought it would be possible for the United States to launch a satellite with the military rocket power now available, but that it would be two to three years before a U. S. missile would hit the moon.

Speculating further, he said it would be four to five years before there was a U. S. manned flight to an orbit in space and back to earth again.

It appears, von Braun said, that the Russians have more powerful engines than we do, but that "there are some very large engines under development in the United States." Work on these larger engines, he said, has been supported on a shoestring because it was not considered part of the high-priority missile program.

As to whether Russia had scored a breakthrough in the development of a super fuel, von Braun said: "We have several rather powerful propellant combinations in this country also. But we prefer not to use them in our ballistic missiles because of poor handling characteristics. In military weapons systems propellant handling problems are a major consideration."

"It is entirely possible that the Russians decided to use such a super-fuel in order to step up the otherwise lower payload-carrying capacity of their satellite rocket."

All that plus the usual standbys who give Oscar performances every time out.

The screen's most beautiful woman, and few argue otherwise, is Liz Taylor. At the moment, her performance in "Raintree County" is the standout among the top feminine stars.

Grandma used to cringe at Sessue Hayakawa. He's meaner

30 Ohio Hunters To Be Shot During Game Season in 1957

Next Friday the open fields of Ohio will become the graveyard for an estimated 30 hunters. Of this unenviable number approximately 90 per cent will be young men under 18.

Already seven have perished and 32 wounded through pure carelessness. There will be more hunters than ever this year due to the increase in population. It is therefore the individual hunter's responsibility to be extra careful when out on the hunt.

Some practical rules to observe are the 10 commandments of safety:

1. Treat every gun with the respect due a loaded gun, for a shotgun is the most vicious firearm man has ever invented.

2. Check your gun to be positive it is unloaded before entering a residence. Always carry your gun in a case when not hunting.

3. Be sure your gun is not jammed and that you have the right shell size.

4. Always carry your gun pointed down when walking and have the safety on. * * * * *

5. BE SURE of your target before pulling the trigger. A .22 rifle can kill a mile away.

6. Never point a gun unless you are going to shoot. Horseplay can turn into a deadly game.

7. Unattended guns should always be unloaded and out of the reach of young children.

8. Never climb an obstruction or jump a ditch with a loaded gun.

9. Never shoot at a flat, hard surface or a surface of water.

10. Never drink alcoholic beverages before or while hunting. If this rule is not complied with the other nine rules, in all probability, will be ignored.

For the benefit of parents, if your son is under 16 years old he must be accompanied by an adult. He will be liable to arrest if found alone.

M. E. Patterson Is Promoted

Goes To GE's Nela Park Plant

Milton E. (Pat) Patterson, 894 N. Court St., has been promoted to fluorescent quality control specialist in the home office of the Large Lamp Department at Nela Park in Cleveland, effective Jan. 1, 1958, according to an announcement by E. G. Grigg, local plant manager.

In his new assignment, Pat will coordinate the quality control work of GE's four fluorescent lamp plants.

Patterson, a graduate of Louisiana State University with a BS in Mechanical Engineering, joined General Electric in 1948 and came to Circleville in 1949 as a quality control engineer.

In 1954 Pat became supervisor of quality control when A. R. (Dick) Boerner was promoted to the same job which Pat is now being promoted to supervisor—manufacturing engineering at General Electric's Ohio Lamp Plant in Warren.

Patterson has been active in Kiwanis, is presently serving as an elder in the Presbyterian Church and is a member of the Circleville Zoning and Planning Commission.

PHILIP T. HINES has been appointed supervisor of quality control to replace Patterson.

Hines, a graduate of Notre Dame, joined General Electric in 1950 and came to Circleville in 1953 as a quality control engineer, with his most recent assignment being manufacturing projects engineer.

Hines is married and has two children and lives at 1057 Lynwood Ave. He is active in Boy Scout work and is a deacon in the Presbyterian Church.

Clothing Store Aide Accused as Embezzler

HUNTINGTON, W. Va. (UPI)—Carl Cassady, 25, assistant manager of a clothing store here, was arrested Sunday in Cincinnati and charged with embezzlement from the store. Cassady also was charged with giving false information to a federal officer. He had told police he was kidnapped and taken into Ohio last Wednesday by a bearded gunman who robbed him of \$1,251 in store receipts.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made

'Higher Education' Week Is Proclaimed

COLUMBUS (UPI)—Gov. C. William O'Neill has proclaimed this week as "Higher Education Week in Ohio" as part of the national observance of American Education Week.

"All of the citizens of Ohio have an important stake in the future of higher education and therefore should be well informed concerning the problems and opportunities of our colleges and universities," O'Neill said.

Balloonist Due on TV

NEW YORK (UPI)—Major D. G. Simons, who made a record balloon ascent to 102,000 feet, will show films of his adventure on "Ballooning for Science" Nov. 30 at 11 a. m. EST over ABC-TV.

Evangelist Scheduled

SAN FRANCISCO (UPI)—Evangelist Billy Graham today began preparations for his six-week San Francisco crusade scheduled next April in the Cow Palace.

prize is Red Buttons, also in "Sayonara," portraying the tragic enlisted man in the James Michener best seller.

Ed Wynn, one of the all time greats of comedy, should be nominated for his touching, tragic role of the radio station owner in "The Great Man."

The lusty characters are Robert Mitchum who played the tough Marine isolated on a Pacific island with a nun in "heaven"—Knows, Mr. Allison, and Errol Flynn, who, made a Hemingway character come alive on the screen in "The Sun Also Rises."

Among the standbys who will rate nods are Deborah Kerr and Cary Grant, for "An Affair to Remember"; Frank Sinatra, for "Pal Joey" and "The Joker is Wild"; James Cagney, as Lon Chaney in "Man of a Thousand Faces," and Tony Quinn and Anna Magnani in "Wild is the Wind."

Audrey Hepburn and Maurice Chevalier, for "Love in the Afternoon," and Anthony Franciosa, for "Hatful of Rain," are others.

The Logan Elm Grange met in regular session Tuesday with Worship Master Hoyt Timmons in charge. Timmons announced that the Pomona Grange will meet at Logan Elm on Feb. 2, 1958.

Mrs. W. C. Watson, lecturer, presented the program for the evening. She read a thought on Thanksgiving and also a prayer, "Teach Me the Thrill of Work".

Nancy Wilson read her winning essay entitled "Trained Drivers—The Best Highway Insurance." The essay was entered in the Ohio State Highway Safety Essay Contest.

Nathan Wilson gave a report of his trip to Hutchinson, Kan., for the tractor rodeo. He won first in state and represented Ohio in the finals.

SALT CREEK VALLEY

Salt Creek Valley Grange met in regular session with Past Master Russel Miller in charge. During

the business meeting a contribution was given to an appeal for aid. Roy Hartranft was reported sick.

Richard Ballard had charge of the program for the evening. Four different films were shown. The first was about the 34th National 4-H Congress at Chicago which showed all the activities and entertainment furnished the boys and girls.

"Your Safety is Our Business" was very interesting. "Getting Along with Parents" gave some ideas of how teenagers see differently than parents. Last, but not least, was a Western, which the juveniles and subordinates enjoyed very much.

Mr. and Mrs. Robert DeLong, Mr. and Mrs. Dow West, and Miss Margaret Chilcott served refreshments.

India's industrial production has increased by 60 per cent during the past 10 years.

Rocket Scientist Outlines How U. S. Can 'Catch Up'

Editor's Note: Director of the development operations division of the Army's Redstone arsenal, answers questions in the minds of many Americans.

By THE ASSOCIATED PRESS
How can the United States catch up with Russia's lead in the race into space?

In the opinion of Dr. Werner von Braun, neither a project like the Manhattan, which developed the A-bomb during World War II, nor the release of great sums of money would help much at this stage.

But science could use a great deal more money in basic research and in some allied fields where there is no current need of a crash program, Dr. von Braun said in an exclusive question and answer article for The Associated Press.

The scientist headed up development of the German V2 rocket which battered London during the war. In recent years, he has been in charge of Army research which has led to the Jupiter-C, designated last week to carry in American satellite into space.

Army scientists have said officially that the Jupiter could have a satellite into its orbit before the Russians shot off their first one early in October, had the administration given it permission.

Until last week, getting a satellite aloft has been solely in the sphere of the Navy's Vanguard project.

Answering a question as to whether a Manhattan-type crash program would help overcome Russia's lead, Dr. von Braun said:

"In the missile field . . . we have practically all the facilities we can intelligently use. Several projects are handled by several teams, each of which is in a different geographical location. Any attempt to dislocate or combine these teams must necessarily lead to immediate interruption of the work, with resultant delays."

About more money:

"I believe that, by and large, our five key ballistic missile programs (Jupiter, Thor, Polaris, Atlas and Titan) could not be speeded up appreciably by increases in funds . . .

"This statement does not apply to many badly neglected fringe areas of our ballistic missile and satellite programs. First and foremost, there is a crying need for more money for basic and applied research in these areas.

"Secondly, while adequate funds are available for the clearly defined missile weapons systems, there is never enough to 'advance the art.' A typical example that we don't have a real powerful rocket engine today simply because none of our present crash missile programs needs it. But in order to beat the Russians in the race for outer space we absolutely need it—and the development of such an engine requires several years."

Dr. von Braun made it clear that if the U. S. is to overtake

Russia in the satellite and missile fields, there are several things which must be done:

" . . . In the ballistic missile field in the United States, about two years ago, embarked into an all-out crash program which will be difficult to substantially accelerate beyond its present pace. In the satellite field, we need a well-planned, long-range national space flight program.

"This program must be backed up by a firm budget which permits its steady prosecution over a period of several years. I think it would be well over five years before we could catch up with the Soviets."

Dr. von Braun was asked about the training programs for scientists in Russia and the United States, and said:

"I believe that the professional quality of a young American physicist or engineer, fresh from the

M. E. Patterson Is Promoted

Goes To GE's Nela Park Plant

Milton E. (Pat) Patterson, 394 N. Court St., has been promoted to fluorescent quality control specialist in the home office of the Large Lamp Department at Nela Park in Cleveland, effective Jan. 1, 1958, according to an announcement by E. G. Grigg, local plant manager.

In his new assignment, Pat will coordinate the quality control work of GE's four fluorescent lamp plants.

Patterson, a graduate of Louisiana State University with a BS in Mechanical Engineering, joined General Electric in 1948 and came to Circleville in 1949 as a quality control engineer.

In 1954 Pat became supervisor of quality control when A. R. (Dick) Boerner was promoted to the same job to which Pat is now being promoted. Boerner again is being promoted to supervisor—manufacturing engineering at General Electric's Ohio Lamp Plant in Warren.

Patterson has been active in Kiwanis, is presently serving as an elder in the Presbyterian Church and is a member of the Circleville Zoning and Planning Commission.

PHILIP T. HINES has been appointed supervisor of quality control to replace Patterson.

Hines, a graduate of Notre Dame, joined General Electric in 1950 and came to Circleville in 1953 as a quality control engineer, with his most recent assignment being manufacturing projects engineer.

Hines is married and has two children and lives at 1057 Lynwood Ave. He is active in Boy Scout work and is a deacon in the Presbyterian Church.

Dr. von Braun made it clear that if the U. S. is to overtake

university, is at least as high as that of his Russian counterpart. But we do not provide sufficient opportunity for these young scientists and engineers to accrue a sufficient number of consecutive years in missile development to adequately enhance their practical experience."

Explaining why the U. S. trails Russia, Dr. von Braun said:

"There was no ballistic missile development program in the United States between 1945 and 1951 because there was no obvious need for it, no interest for it, and no money for it."

Von Braun worked on U. S. missile research from 1945 on. He and 400 colleagues had fled to Bavaria to escape from Russian capture and had given themselves up to American forces.

He now heads 130 former German missile scientists at the Redstone Arsenal.

Von Braun said he thought it would be possible for the United States to launch a satellite with the military rocket power now available, but that it would be two to three years before a U. S. missile would hit the moon.

Speculating further, he said it would be four to five years before there was a U. S. manned flight to an orbit in space and back to earth again.

It appears, von Braun said, that the Russians have more powerful engines than we do, but that "there are some very large engines under development in the United States." Work on these larger engines, he said, has been supported on a shoestring because it was not considered part of the high-priority missile program.

As to whether Russia had scored a breakthrough in the development of a super fuel, von Braun said:

"We have several rather powerful propellant combinations in this country also. But we prefer not to use them in our ballistic missiles because of poor handling characteristics. In military weapons systems, propellant handling problems are a major consideration.

"It is entirely possible that the Russians decided to use such a super-fuel in order to step up the otherwise lower payload-carrying capacity of their satellite rocket."

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

It can shrink hemorrhoids while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made

30 Ohio Hunters To Be Shot During Game Season in 1957

Next Friday the open fields of Ohio will become the graveyard for an estimated 30 hunters. Of this unenviable number approximately 90 per cent will be young men under 19.

Already seven have perished and 32 wounded through pure carelessness. There will be more hunters than ever this year due to the increase in population. It is therefore the individual hunter's responsibility to be extra careful when out on the hunt.

Some practical rules to observe are the 10 commandments of safety:

1. Treat every gun with the respect due a loaded gun, for a shotgun is the most vicious firearm man has ever invented.
2. Check your gun to be positive it is unloaded before entering a residence. Always carry your gun in a case when not hunting.
3. Be sure your gun is not jammed and that you have the right shell size.
4. Always carry your gun pointed down when walking and have the safety on.

• • • •

5. BE SURE of your target before pulling the trigger. A .22 rifle can kill a mile away.

6. Never point a gun unless you are going to shoot. Horseplay can turn into a deadly game.

7. Unattended guns should always be unloaded and out of the reach of young children.

8. Never climb an obstruction or jump a ditch with a loaded gun.

9. Never shoot at a flat, hard surface or a surface of water.

10. Never drink alcoholic beverages before or while hunting. If this rule is not complied with the other nine rules, in all probability, will be ignored.

For the benefit of parents, if your son is under 16 years old he must be accompanied by an adult. He will be liable to arrest if found alone.

This Year's 'Oscar' Derby To Be Interesting, Colorful

HOLLYWOOD (AP) — This year's Oscar derby shapes up as the most interesting—and most colorful—in years.

Previewers have looked at most of the class products—the so-called Academy Award entries—and how's this for a possible field?

The screen's most beautiful woman: a long forgotten villain of the silent screen; a young girl who hadn't even acted in a high school play six months ago; two comics, both discarded by TV

and both switching to serious dramatics; and the only two Rabelaisian characters left in an industry that once was filled with them.

All that plus the usual standbys who give Oscar performances every time out.

The screen's most beautiful woman, and few argue otherwise, is Liz Taylor. At the moment, her performance in "Raintree County" is the standout among the feminine stars.

Grandma used to cringe at Sessue Hayakawa. He's meaner

than ever as the commander of the Japanese prison camp in "Bridge on the River Kwai."

Alec Guinness, the master of British satire, seems to be a shoo in for a nomination in the same picture. It's a serious role for Guinness, famed for English comedies.

Miiko Taka, a cute Nisei girl from Los Angeles, was working for \$60 a week in a travel agency six months ago. She was chosen—and coached by—Marlon Brando for her acting debut in "Sayonara."

Audiences will find it hard to believe that this girl's sensitive portrayal of Brando's Nipponese sweetheart is the work of a novice.

Brando seems a sure bet for his umpteenth nomination in the same picture. But the big sur-

'Higher Education' Week Is Proclaimed

COLUMBUS (AP) — Gov. C. William O'Neill has proclaimed this week as "Higher Education Week in Ohio" as part of the national observance of American Education Week.

"All of the citizens of Ohio have an important stake in the future of higher education and therefore should be well informed concerning the problems and opportunities of our colleges and universities," O'Neill said.

Balloonist Due on TV

NEW YORK (AP) — Major D. G. Simons, who made a record balloon ascent to 102,000 feet, will show films of his adventure on "Balloon for Science" Nov. 30 at 11 a. m. EST over ABC-TV.

Evangelist Scheduled

SAN FRANCISCO (AP) — Evangelist Billy Graham today began preparations for his six-week San Francisco crusade scheduled next April in the Cow Palace.

prize is Red Buttons, also in "Sayonara," portraying the tragic enlisted man in the James Michener best seller.

Ed Wynn, one of the all time greats of comedy, should be nominated for his touching, tragic role of the radio station owner in "The Great Man."

The lusty characters are Robert Mitchum who played the tough Marine isolated on a Pacific island with a nun in "Heaven Knows, Mr. Allison," and Errol Flynn, who made a Hemingway character come alive on the screen in "The Sun Also Rises."

Among the standbys who will rate nods are Deborah Kerr and Cary Grant, for "An Affair to Remember;" Frank Sinatra, for "Pal Joey" and "The Joker is Wild;" James Cagney, as Lon Chaney in "Man of a Thousand Faces," and Tony Quinn and Anna Magnani in "Wild is the Wind."

Audrey Hepburn and Maurice Chevalier, for "Love in the Afternoon," and Anthony Franciosa, for "Hatful of Rain," are others.

Pickaway Grange Report

The Logan Elm Grange met in regular session Tuesday with Worthy Master Hoyt Timmons in charge. Timmons announced that the Pomona Grange will meet at Logan Elm on Feb. 2, 1958.

Mrs. W. C. Watson, lecturer, presented the program for the evening. She read a thought on Thanksgiving and also a prayer, "Teach Me the Thrill of Work".

Nancy Wilson read her winning essay entitled "Trained Drivers—The Best Highway Insurance."

The essay was entered in the Ohio State Highway Safety Essay Contest.

Nathan Wilson gave a report of his trip to Hutchinson, Kan., for the tractor rodeo. He won first in state and represented Ohio in the finals.

Baby Is Strangled By Tuto Window

KANSAS CITY, Kan. (AP) — Lucinda Lynn Howell, 22 months old, strangled Sunday night when her mother rolled up the window of an automobile.

Sheriff's officers said Mrs. Vega M. Howell, 25, told them she was sitting in the front seat of the car with a neighbor and chatting with relatives standing alongside. Three children were playing in the back seat.

There was a draft through a rear window so she reached back and rolled up the glass without looking. She did not see Lucinda Lynn had stuck her head out.
